HURON COUNTY DITCH MAINTENANCE PROGRAM  
FEBRUARY 24, 2011

**Application for assessment reduction for conservation practices according to Ohio Revised Code Chapter 6137.09.**

**Conservation practice: Systematic tile drainage installed on crop land.**

Reduction allowed: 10% of the maintenance base for each affected parcel.

Requirements: Tile installed on spacings of 50' or less. Proof of installation shall be submitted with this application. This proof of installation can consist of aerial photographs, FSA aerial maps that show the tile system, or an as-built tile plan. The owner is required to maintain the tile system in good working condition. The replacement of the outlet pipe and animal guard are considered to be the responsibility of the landowner and not the maintenance project.

Conditions: Land uses eligible for this reduction are crop land, pasture land and CRP land. Land uses not eligible for the reduction are house lots, commercial land, sub divisions, wood lots, ponds and lakes and farmsteads. The Huron SWCD has the right to inspect the parcels listed below to determine continued eligibility for this maintenance base reduction.
